## ELECTRICAL INSTALLATIONS

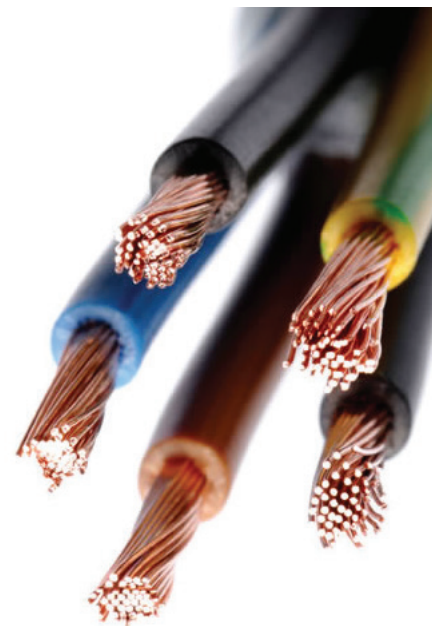

Roblett Electrical Contractors are a new and up coming electrical contracting company, with a reliable and expert team of electricians available for all commercial, industrial and retail services.

Our work is completed to the highest standards as set by current British legislation, we have over 25 years experience within the electrical industry. We specialise in designing and fitting full electrical systems, everything from new factory builds to office refurbishments. The safety of your staff and premises is of our utmost concern.

Our commercial electricians will work closely with you to design an electrical system tailored to the specific needs of your property, regardless of the scale of work required, and are fully equipped to safely and efficiently install and maintain your system in a manner that causes the least possible disruption to your business.

The professional team at Roblett Electrical Contractors are able to carry out complete services in all electrical installations, repairs and maintenance, as well as provide highly competitive rates.

- Installation certificates
- Period test and reports
- Landlords certificates
- Visual Inspections
- Portable appliance testing (PAT)
- Internal and external lighting schemes
- Single and 3 phase distribution
- Heating installation, design and maintenance by our qualified team of industrial electricians.
- Uninterruptable power supplies and generators
- Power factor correction, power consumption and disturbance monitoring
- All work Guaranteed
- Huge range of Services
- Commercial & industrial
- Friendly & professional workforce
- Competitive prices
- Full design and build electrical installations, including Emergency Lighting
- NICEIC electric periodic inspection and testing of fixed wiring
